

I oppose any changes to the current concealed carry law in Oregon. My statement comes from having experience as a prior law enforcement officer in the state of Oregon. The changes that are trying to be pushed through are both unconstitutional and unethical. It would cause law abiding citizens to become criminals by setting them up for failure. Stop trying to hurt law abiding citizens. The only thing you do by creating "gun free" zones is put a target on the map for criminals and lunatics. We all know criminals do not follow the law. So having gun free zones only puts targets on law abiding citizens backs. Responsible citizens who carry concealed legally stop crimes in this state every single day. Stop trying to make this state a criminals breeding ground.
