

Don't be fooled! This bill is simply another effort by the Democrats to disarm us incrementally, one bill at a time. It will do nothing to curb crime, but instead will make criminals of law abiding citizens. Why is it that the Democrats are hell bend on disarming us? You figure. The Republicans will cave in as usual and can't organize any meaningful resistance to the agenda of the Democrats. Nor do they seem to have any ability to communicate a counter agenda to the public. A sad situation we find ourselves in. We will witness with this bill and the other anti gun bills the loss of a representative government. We the people don't want these bills. From what I've seen in the testimonies the ratio is about 4:1 against it all. So therefore it should have never gotten out of committee. But pay attention! This is how the Democrats operate. Forget representative government, it's about implementing the agenda of the left which ultimately will lead to communism. Defunding the police, closing the prisons, destroying the second amendment, flooding the country with illegal immigrants, suppress fair voting, the destruction of the Constitution, encouraging of riots. All this to built their utopia. One bill at a time. We have ongoing riots in Portland. Why is nothing done about that?
