

Good afternoon, I am a long time resident of Oregon, I have been around fire arms my entire life, I learned to safely use them when I was very young, about 5 years old when I first handled a real fire arm, I have concealed carried for all my adult life, why? because there is and always will be evil in this world. I believe in being prepared as I can be at all times, carrying a weapon is part of this . I dont need any government help with this, there is way to much over reach already!! Concentrate on the people who break the laws we have already punish them, hold them in account for their actions and leave the rest of us alone. This road you are going down will lead to more problems then it will ever resolve, The enforcement of storage would be a minefield to say the least, are you going to come into my home to check and see if I am going to comply?? dont think so, you going to check me for weapons where ever I go?? We deserve better than a police state, and this in many ways is what you are trying to establish, not a good idea. I realize that I am just one person and that this will probably fall on deaf ears. I have said just a small part of how I feel about the way this state is headed, and I am not very happy about it, Time for Salem to wake up!!! there are thousands like myself who feel this way.

Thank you for your time, Steve Gleason
