

I support Senate Bill 554 for these reasons:

SB 554 takes a responsible step towards improving safety. Allowing owners and controllers of buildings to adopt ordinances to limit concealed carry will make me feel safer by knowing the building's ordinance. I especially agree with including School Districts in the bill's definition.

The bill requires that any entity that adopts this kind of ordinance post visible signs showing the limits. This is a transparent and wise requirement.

SB554 will have little financial impact (if any) so this will not burden any building owners.
