

I oppose this bill for many reason. I have a concealed license and I feel that if I went through the proper backround checks and verifications, I should be allowed to carry and not worry about getting arrested for being a law abiding citizen and doing everything right. I also believe that this would make to were if you are carrying concealed and are about to go to an area that this bill covers, than I would have to go back to my car and put it in there. Now I have a firearm in my car that someone can break into and take. I dont believe that is a good idea. I oppose this for many more reasons that my fellow 2A Americans are expressing as well. I believe this is going to set up law abiding citizen to make them out as criminals and that's not ok. Please listen to everyone who opposes this and do not pass this bill.
