

I urge you all to vote yes on Senate Bill 554 which gives the power to local officials to prohibit firearms from their property if they so wish. As the parent of a high school student, this bill is important to me; I want my daughter's school administrators to be able to restrict guns on campus, because when guns are in schools children will get hold of them. I also want to be able to go to the post office, the state capitol, the airport, or a college campus without worrying about who of the people around me might be armed with a lethal weapon. More guns do not make society safer. If that were the case, the U.S. would be the safest country in the world, which unfortunately it is absolutely not.
Please support SB554. Thank you.
