

The second amendment is clear. It is simple, it does not need explanation. What this bill proposes to do is more than infringement it is tyranny. This puts many normal oregon citizens into danger of becoming felons by accident without even knowing it. Every bill passed moves gun owners back one step. Why you may ask? Because we are doing our best to uphold the law. We have tried to do our part. However, the more laws you make the less room we have to accommodate those laws and still enjoy our freedom. So have you asked yourself what happens when gun owners are out of options? What are the ramifications of the bills we are writing into law. What are the effects of this bill on people. If your goal is to push gun owners into a corner. By all means pass it. Are you ready for the consequences of your actions by passing this bill? Will you handle it the way your handling the riots in portland? Allowing lawlessness allowing drugs to run free. You are treading down a path that will lead to the destruction of this state. It will tear itself apart, the fabric is already stretched thin. Will you now apply the knife and watch it shred itself from the strain? Think before you act apply logic, not emotion. Pushing for gun control is not only ineffective, it is wrong. It is a direct counter to the second amendment. Passing this bill puts you in direct league with tyranny.
