

In a small town like Florence, Oregon, having a community cinema that provides movies, documentaries, space for private and community events, etc. is a huge benefit. We would be devastated if City Lights Cinema were not able to receive state support. The business has made every attempt to stay afloat, utilizing "GoFundMe", setting up paid electronic access to events, soliciting other contributions, selling snacks, and following all rules for COVID compliance. Please help towns like ours maintain such important entities that benefit everyone. THANK YOU.
