 - *\$40 million for assistance thru tenant applications has been fully distributed to local organizations, where payment to landlords is happening now via tenant applications, and approximately 50% has been committed or spent. \$10 million to be distributed shortly.*
5. Late December, 2020: Trump Administration stimulus [package](#): \$282 million in rent assistance payments to landlords, based on tenant applications. (Expected to begin distribution in early-mid May)
