

HOUSING ALLIANCE

April 29, 2021

House Committee on Revenue
Oregon State Legislature
900 Court Street NE
Salem, OR 97301

Dear Chair Nathanson, Vice-Chair Reschke, Vice-Chair Pham, Members of the Committee:

I am writing to you today on behalf of the Oregon Housing Alliance to express our support for HB 2551A, which will extend the tax credit for the Oregon Individual Development Account (IDA) Initiative and will make technical changes to improve the Initiative.

The Oregon Housing Alliance is a coalition of ninety organizations from all parts of the state. Our members have come together with the knowledge that housing opportunity is the foundation on which all of our success is built – individual success as students, parents, workers, and community members as well as the success of our communities. We represent a diverse set of voices including housing developers, residents of affordable housing, local jurisdictions, and organizations working to meet basic needs in every corner of our state.

We believe that all Oregonians need a safe, stable, and affordable place to call home.

Prior to the COVID-19 pandemic, we knew that already, too many seniors, families, and people who experience disabilities were paying too much of their income towards rent, and were experiencing other forms of housing instability. In Oregon, three out of four households with extremely low incomes pay over half of their income towards rent. When people pay that much of their income towards rent, they have too few resources left over for food, medicine, or utilities. An emergency of a few hundred dollars may mean they end up experiencing homelessness.

The Oregon Individual Development Account, or IDA, Initiative, is a matched savings program that delivers economic opportunities to low-income individuals and communities of color, by extending the sunset on the IDA tax credit, and committing general fund resources to close the gap for the Initiative.

IDAs offer a hope for a better future for people with low incomes, by supporting them to save for the purchase of an asset.

IDAs allow someone to save, while taking financial education classes, with a goal in mind of purchasing an asset such as a home, an education, or supporting a small business. Their savings are matched from a state fund, which has been funded through a state tax credit.

IDAs are a testament to savers' long term financial health. One year after achieving their goals, 97% of all savers who used their savings for home purchase reported that they were current on their mortgage. 91% of all savers who opened a business reported that their doors are still open.

We know that IDAs are one very effective and important tool that can help people either save for their first home, or save for home repairs to maintain the home they own. Over the years, approximately one third (34%¹) of savers have used their IDA to purchase their first home. IDAs significantly serve communities of color, with people of color making up the majority (53%)² of IDA savers across Oregon.

The Oregon IDA Initiative has dispersed \$12.1 million in matching funds to over 2,000 Oregon savers in 2018 and 2019 alone. On average, IDA participants are Oregonians with low-incomes, and save \$2,500 over 32 months, earning \$6,010 in matching funds towards their savings goal.

The IDA Initiative has been fortunate to have the continued support of the Oregon State Legislature since 1999, through the continued reauthorization its funding mechanism, a credit on state and local taxes which are granted to taxpayers who contribute to the IDA Initiative.

We are asking for your support to extend the tax credit and make the technical changes included in HB 2551A.

Thank you very much for your time, and for your service to our state, particularly in these challenging times.

Sincerely,

Alison McIntosh
On Behalf of the Oregon Housing Alliance
