

4-16-21

Dear Senate Committee,

Hello my name is Blaine Shadden and I am a inmate at S.R.C.I. in Ontario, ON. I am doing a 30 year sentence, which is day for day. which means I get no good time, like alot of others here. which is the case of me writing to you for Bill SB #191. Good time give to me as well as alot of others who would help get rid of alot of the chaos here. Because then everyone would have something to lose if they got in trouble. It would be just a slap on the wrist. It would mean that they won't be home sooner and that they're family's would be upset as well. you could give us good time as well as retro-active good time from 20% to 50%! If I got 50% good time retroactive, I'll still be doing 5 years before I would get to go home. But because the system is broke! Its hard because I'm doing day for day for 30 years. When I was in County Jail, there were guys with same crime, but worse charges that got sentenced before me and after me and only got 10 to 15 years. So how is fair that they get less time, but also good time too? Look at my record, before this I didn't have one. And now because of the time, I got I won't get a second chance to live my life, not including help my family. That's why we're all fighting for retro-active good time, not including normal good time. So some of us can get a chance for a life again. plus getting rid of mandatory minimum's sentences. Because some of us got the short end of the stick. It would be nice to know, that people with the same crime's, Innocent or guilty! everyone should have the same sentence's not including the same chance of good time from 20% to 50%. It not only gives us and our family's hope of getting home sooner, but I know for a fact it would keep a lot →
