I participated in a report developed by the ACLU and this amazing individual who is doing her internship at ACLU and is one of the most committed attorneys I've ever met reversing near justices of mass incarceration Jamelia Morgan

Once again, thank you for the opportunity to provide video testimony and submit these reports, articles and documents supporting the need to mitigate the damage of Measure 11 and mentouri sentencing. The country is undergoing a massive change in the mass incarceration of individuals from the BIPOC community. My testimony and eat report and article submitted are a direct result from personal experience of being incarcerated because of Measure 11 and the abuse has individuals face under the current system.

Respectfully, Dean H Westwood MSW
