Re: [HB 2440](#) Family Care Tax Credit - **Support**

The League supports a tax system that is based on the ability to pay, but that applies a benefits-received principle wherever reasonable and that recognizes the role of social expediency.

We support continuing the tax credit for working families with dependent care. The annual credit is worth about \$1000 per household for about 30,000 taxpayers in the bottom 60% income tax bracket according to Oregon Center for Public Policy. This is a big boost to families who most need financial help who are caring for loved ones.

The LWVOR recommends continuing the tax credit provision in this bill.

Please support HB 2440.
