

I've been a licensed esthetician for 22 years. I love my profession! My school, The Esthetics Institute in Portland, Oregon, educated me on the tools in question. There has never been a problem with a client, ever! These are items my instructors trained me on professionally.

If this bill passes, my business will suffer a hardship. My regular clients expect these treatments on a regular basis.

We do not use laser in my profession. It would be a completely different type of business and isn't encompassed in the description of my business.

Thank you.
