RE: Support for Washington County Family Peace Center project (SB 5534)

I am writing on behalf of the Beaverton Police Department to express strong support for the Washington County Family Peace Center project.

This project seeks to establish a 20,000+ square foot facility for Washington County children and families impacted by child abuse, neglect and domestic violence. This facility would provide medical treatment, therapy, family support and prevention services to address trauma in a collaborative, proactive way while promoting the health and safety of our community.

Co-locating services for both child abuse and domestic violence addresses an urgent need in Washington County. We know that child abuse and domestic violence are widespread and cause long-lasting social and economic harm, not only to the victims individually but also to the community as a whole. Additionally, while this trauma impacts everyone it can often have a disproportionate impact on those who are financially vulnerable or historically marginalized. COVID-19 has exacerbated these challenges as incidents of abuse have increased, while access to help and resources has decreased.

A Washington County Family Peace Center follows a national mode and will be the first co-located center of this type for child abuse and domestic violence in Oregon.

We urge your support for the Washington County Family Peace Center project. This investment in the most vulnerable members of our community will not only to promote the health and safety of children and families today, but the well-being of future generations.

Thank you for your consideration.

Sincerely,

Ronda Groshong

Re: Support for Washington County Family Peace Center project (SB 5534)

Dear Committee Members:

I am writing to express my strong support for the Washington County Family Peace Center project.

I support the proposed creation of a much needed west side location for CARES NW child abuse, resource and evaluation services in the soon to be vacated Washington County Consolidated Communications Agency building. We believe this location would be most effective for caring for our local young victims of sexual violence, especially if it can be co-located with the Washington County Family Justice Center. The WCCCA building would be ideal to serve both, often interrelated, needs in a location more easily accessible to residents from around the county.

My decades in organizing and providing health care services and having the opportunity to sit on various committees and boards that intersect with the needs of children (including Washington County Commission on Children and Families, Washington County Public Health Advisory Committee, Community Action Organization, and the Washington County Vision Action Network), have made it clear to me that there is a compelling argument that we can provide these services more effectively and efficiently closer to home. More children will be able to make their appointments for evaluation and care, and staff assisting them will be more readily available.

I strongly urge your support for the Washington County Family Peace Center project. This is a win-win-win opportunity for vulnerable community members and future generations of our children in need, these agencies, and the County.

Thank you for your consideration.

Sincerely,

Richard V. Stenson, FACHE, FACMPE
