

Though the years , I have worked with life coaches, shamans, energy healers, yoga teachers and therapists. I know, first hand, that these alternative healers and counselors make a tremendous difference in a person's physical body as well as in emotional health. Since this legislation will limit the ability of these professionals to continue their much needed services, I strongly urge my representatives to vote against this bill on Monday, May 10th!

Thank you,
Linda Rukke Landen
