

I oppose this bill. Many alternative practitioners have been impacted by covid and having to pay for licensing is one more burden for the small business person. Please know that alternative practitioners have already paid thousands, if not tens of thousands in coursework, one-on-one training, certification post training, possibly licensing in their profession, insurance, office rent, equipment, ongoing training to remain current.

This will end all Body, Mind, Wellness shows that bring both vendors and customers from other states as well as local people.

Please help the small business people. Please put their best interest first.

Thank you

Donna Mainord, CHT., Usui Reiki Master, Intuitive Angel Card Reader, and Oregonian.
