

Dear Committee Members:

My names is Sandy Short and I am a certified practitioner in the Eden Method of Energy Medicine. I am not against licensing or regulation of alternative well-being care, actually I am for it. I would like to see a licensing board for alternative well-being care rather than House Bill 2493. This bill states that it "directs health licensing office to establish and maintain voluntary alternative practitioner registry of individuals who provide alternative well-being care." If I am not required to apply for listing and this is voluntary, what would be the purpose? And how does this help the consumer? Alternative practitioners need a licensing board, not House Bill 2493. Thank you for your time.

Sincerely,
Sandy Short
Eden Energy Medicine Certified Practitioner
