Thank you for reviewing testimony,

I have been a Reiki practitioner for over ten years and am always impressed with the integrity built into the practice of Reiki. Reiki is taught as the masters intended, as a pure healing energy coming directly to the earth from the divine. One can no sooner regulate Reiki in any meaningful way than they could the human ability to pray, where ever and when ever they choose. Efforts to regulate and define what Reiki is not will serve to confuse and denigrate a beautiful self-regulated system of divine prayer.

In Appreciation,

Marjorie Meade RN
