

I'm oppose of this new bill, even though I am now in Georgia, this bill poses a treat to all of the Reiki Practitioner and Master. I found Reiki in my lowest point of live, sick, living in my sister home, working as a nanny, with very little income and in a lot of pain. I found Reiki in 2014, and it change my life forever, I build friendships that are now for a lifetime, that have helped my drakes hours. Reiki, heal my body and reduce so much of the pain, that I was in. I found my life purpose, and it gave my life meaning. And it all started with me entering a Free to the community Reiki circle, that meet once a week, and offer 5mim sessions. This ladies had the freedom to offer their services for free, and helped so many people along the way. What you are proposing will take that form the community, from the member of the community that need it the most like I did. I vote No to this bill, and ask you to do the same. Keep Reiki FREE!
