Re: [HB 3372 A (-4)]: "Authorizes Department of Environmental Quality to require certain information related to history of compliance with environmental quality laws from applicant for license or permit."

I SUPPORT [HB 3372 A (-4)]

[HB 3372 A] should also have an Amendment addressing the imposition of "cost recovery of DEQ" for having to monitor, punish and reinstate (if applicable) to the violators of environmental law(s). Make reinstatement very costly to deter bad conduct.

Good Job (so far) on [HB 33372 A (-4)] Speaker Kotek!
