

It is all that we as small business owners can do with one tax or fee upon another being added, to be able to sustain business with the other costs of doing business skyrocketing.

Wood is up 300% Metal is up 200 %. Diesel and gas over a dollar a gallon from 5 months ago. We have families that rely on us for their paychecks and you want more. This is going to be unsustainable. NO NO NO We can't continue to absorb costs and fees and taxes and the public can't afford to pay for more expensive services. You are stretching both sides against the middle.
