

I am submitting testimony to oppose SB 857. This legislation is born out of special interest agendas and is not representative of the community at large.

My parents, siblings, and I have spent some of our most memorable time together boating and water skiing on the Willamette and I want to share similar memories with my kids and their grand children.

Our waterway policies should be grounded in solid research and favor the general public, not select waterfront homeowners and paddlers looking to eliminate motorized boating for their own personal gain. Furthermore, the Newberg Pool is already one of the most regulated bodies of water in Oregon, and wake surfing is only allowed in two small zones with no adjacent homes.

This bill will make our waterways less safe and negatively impact Oregon families and small businesses. The House already extensively debated this bill and did not move forward. I respectfully urge you to do the same. Oregon needs our senators focused on keeping small business alive and getting our kids back in school. Please do not waste time on this unnecessary legislation. Thank you for your consideration.
