

I OPPOSE ANY STUDY ON TAX REFORM THAT WOULD NOT TOTALLY ELIMINATE THE INCOME TAX FOR A SALES TAX AND ELIMINATE MOST OF THE REVENUE DEPARTMENT..

The bill calls for a study of tax reform which could very likely include how to adopt a sales tax. The key goal is to find taxes that are "stable" which is one of the most common words associated when past Oregon lawmakers have discussed a sales tax. Politicians want to be like California which have major property, income and sales taxes. Never mind, that per-capita, Oregon spends more than 46 other state governments. Oregon has enough taxes, they just want more and now they want protection from future pandemics and recessions so they can tax you if you lose your job (through sales taxes) so your personal crisis does not impact budget revenue.
