

I reside in House District 23 and I believe Representative Mike Nearman should be expelled from the Oregon House of Representatives.

His actions in planning and executing a dangerous scheme, documented in various videos from December 2020, are evidence of his disregard for the safety of his colleagues and staff working in the Capitol, including members of law enforcement. It also proves his disregard for the law, which he purports to uphold.

I don't believe it's possible for him to act in the best interests of our district or the State of Oregon. Therefore, I ask that you move HR 3 forward to allow the full house to vote on whether or not to expel him.
