

Rep. Mike Nearman opened the doors to insurrectionists. His actions threatened the safety of every person in our Capitol. There are videos of him letting them in and casually walking around the building and reentering. That by itself was enough to remove him, but further proof has been discovered of him coaching the mob on how to get in and what to do once inside!!! He has violated his oath of office and the trust of the citizens of Oregon. There must be repercussions for his actions. Enough is enough. Does someone need to die before these acts are taken seriously. He has become a hero to those who work against the rule of law and our Democratic ideals. He must be removed and then arrested for his actions.

Please vote to remove him and set the standard for any possible future transgressions.
