

Rep Mike Nearman is a complete embarrassment to the entire State of Oregon and must be removed from his duties! He can no longer be trusted to do the business of Oregonians. I saw the video of him suggesting how access to the Capitol would occur, while he "pretended" it was a fake comment. Why even make the comment if it wasn't the truth? I am not in his district but I know someone who is and they are completely disgusted about his lack of connection to his constituents, and failure to do his duties. We have important business to be done in this State and we frankly don't have time for people who aren't in touch with reality! GET RID OF HIM!
