

As a voting resident of Rep. Nearman's District, I support his expulsion from the Oregon Legislature. The video evidence showing his assistance in the illegal opening of a door to the State Capitol is substantial that he performed an action that is against our democratic government and a denial of the reasonable rule of law. His actions on this matter and his support of racist and anti-immigrant activities deny some of our democracy's chief values, not to mention his endangerment of his fellow legislators. I also feel that his actions and stands are an embarrassment to our district and a betrayal of our district's highest values. Please vote to expel him from the Oregon Legislature. To keep our legislature and Capitol building safe, and in order for our district to be represented by a person who more appropriately represents the values of our District, please remove him.

Steve Mitchell
