

The whole Country has opened up and still this legislative body locks the doors of the People's House, barring The People.

Taking away the entrance rights of those you are suppose to serve is the real traitorous act worthy of expulsion.

Mike Nearman opened the door of a building being held hostage by elitists politicians who continue with their subterfuge against the Constitutions of our Country and state. This year's House legislature is not worthy of passing judgment on Representative Nearman.

If Representative Nearman is to be judged for his action then it is up to his constituents. Not those who would rule like a mob.

No. Not you, who almost gleefully allow thugs, criminals and the depraved to run the streets night after night at will. Perhaps because they destroy for you what you want ultimately destroyed.

No, your judgment to expel a man who acts with true patriotic ethics would be a travesty.

If you were listening on Wednesday you may have heard The People who were locked out of our building and gave a collective shout to your overall behavior NO!

No to HR3

Sally Klein
