

Our representatives need to be held accountable for their actions. Rep. Nearman opened the door to violent, armed rioters at the Capitol and was even caught on video PLANNING THE ATTACK. These rioters belong to hate groups that are racist, xenophobic and misogynistic. He put lawmakers and State Police at risk of injury or death, and severely disrupted the carrying out of democratic government. This is clearly absolutely unacceptable behavior, and I urge you to do your duty and immediately expel this dangerous and immoral person and bar him from holding office in the future. We do not want despicable people like this in our government!
