

I live in HD23. I am appalled by Representative Mike Nearman's conspiracy to unlawfully allow armed extremists into the Oregon state legislature. He his colleagues and the officers/staff at risk. He does not and cannot possibly represent me or any lawful citizens of this state. He should be expelled immediately.

Since the video of him exiting the side door, Nearman has denied and downplayed his actions. He has refused to admit wrongdoing or even that he made a mistake. It's as if he believes his colleagues will just wink and make this all go away.

Since the "Operation Hall Pass" video became common knowledge, he has even made light of the situation on talk radio. It appears this is all a joke to him. He planned to facilitate chaos and a disruption of state government to support his extremist beliefs and has shown he is willing to let harm come to others for what he believes in. He deserves to be in jail.

I support this bill and hope to see Nearman expelled ASAP. It should not be taking this long.
Thank you for listening and working for the good of the people above political parties.
