

I support HR 3, resolving that Representative Mike Nearman engaged in disorderly behavior. That Nearman's actions were "disorderly" is quite the understatement. Video/audio evidence clearly reveals that Nearman collaborated with others to allow a breach of the state Capitol, a breach which endangered the lives of others and resulted in the Capitol being vandalized. Mike Nearman is an elected public official who abused his office by aiding & abetting an unlawful and violent attack. Certainly he engaged in disorderly behavior, along with violating his oath as a public servant. He should be expelled from office, as public officials elected to uphold Oregon laws must be held to the highest standard, while instead, Representative Nearman aided & abetted unlawful mob violence.
