

What ever happened to innocent until proven guilty? You propose to expell Rep. Nearman without granting him a fair trial. Opening a door, that is guarded by state police, may have been a mistake, but I don't see it as bad as some of the acts of other legislators, or their staff, that only warrant a slap on the hand. I urge defeat of HR3. Republicans, remember, the Democrats could come for you next. Your brothers and sisters des.erve treatment that is at least equal to the other side.
