

I've been reading what Rep. Mike Nearman did in December 2020 regarding allowing illegal entry into the State Capitol building in Salem. I also watched the videos and it's absolutely appalling and shocking that one of our leaders did such an illegal act. He can't be trusted to be a voice for law and order. He should be expelled from his job. Just having him resign isn't good enough. I would like a criminal investigation into his acts also--is he guilty of conspiracy when performing this act of allowing non-authorized people into the capitol?
