

I am writing about a political issue for the first time in my life but I cannot help but comment on Mike Nearman's despicable behavior in opening the door for insurrectionists to enter the capitol. It is an abomination of democracy and what makes our country great-- fair representation, honesty, dedication to our constitution. If he cannot follow the rules and protocols of the Oregon legislature, let alone risk harm to those inside the capitol building, he should be expelled...thrown out... not be allowed to run for office again. He is a disgrace.
