

this nonsense must stopped. anyone who wilfully engages in insurrection-type activities has no business representing the people. He is a clear and present danger to the state and to his colleagues and state employees. Democracy is not my way or the highway. Republicans need to get over their Big Lie. Democracy cannot operate without truth. The republicans "represent" only the moneyed interests who pay their bribes (campaign donations). Their ultimate goal seems to be to create a theocracy based on some bastardization of christianity.

As well, they want to privatize government services so they can more efficiently rape the public. These people like Nearman should be expelled from the state legislature, because like trump, if he's not he will take it as vindication and approval of his actions, and it will be worse next time.
