

Actions by ANY person, especially those who have sworn to uphold and protect the Constitution of this state and the USA should be censured by all available means when misbehavior occurs. This particular representative not only failed to protect his fellow constituents, he WELCOMED danger to those trying to fulfill their responsibility as elected representatives. He also endangered not only the elected people but their staff as well. He should have severe consequences, including expulsion. His constituents can vote in another person to represent them who is interested in people other than himself.
