

There are no houses on the upper to damage so who is trying to stop us from boating?? A non boater for sure. Boating is very safe during this pandemic!! Keeps people outside. This will ruin local business but I'm sure that's not important. Why would u guys be focused in this when crime is through the roof , homeless issue is getting worse and worse. Downtown is destroyed !! Focus on real issues and let the average Joe's like us enjoy our summer and the outdoors.

There is no science on the erosion issue.

Bottom line let us boat you Guy have so much other things spend your time on. Thanks Paul.
