

Unfortunately the fools pushing this bill seem to have a problem with trying to take away right's from the people they are supposed to represent! My RIGHTS are NOT up for a Debate or Vote. We put you in your positions to represent us and WE can remove you as well. You work for The People! We have never approved this and Never will. Take Note! America is a Republic and I think you better dust off the Constitution and get back to using it before We, the People revolt! You really are pushing your luck!
