

HB 2543 Only makes things harder for regular citizens to protect themselves. How do we protect our selves when you are taking police away at the same time we need more. Crime rates have sky rocketed and will continue to do so. You have decriminalized drugs. Doing so you have increased the drug problem. I have been around firearms my whole life. I have also taught hunters education to children. When children are informed about firearms they are less likely to pick one up and play with it. Uninformed/uneducated people adults and kids will needlessly die from lack of education. Criminals will not follow the rules. Less police and over regulated privately legally owned firearms means the criminals win. STOP THIS GRAB FOR OUR 2nd ADMENDMENT RIGHTS.
