

Committee members, as a CC holder, it is an offense to me to enter a building unless there are armed security on duty. If a public building wants to restrict citizens from their right to carry a firearm, then they should be required to have Armed Security on duty!

When I pay for my CC license, I expect to be able to defend myself or those around me, if there are no armed security around, and an event happens, who will stop it?

Now to the arising the cost of CC renewal, just what do we as CC citizens get for the price increase? Nothing!

Send this bill to the trash heap!
