

This is a unnecessary bill i feel only constructed to make it a crime to defend yourself bu simply picking up a loved one and exercising a constitutional tigt to protect onesrf.

Why are we as American s still trying to make it easy for criminal s to hurt others by removing the safedt way to defend oneself with a firearm?

Any person that goes through the process in Oregon to obtain a chl ththrough background cchecks has done wsy more than enough to orove they are a safe responsible citizen. If anything repeal current laws and stop going after badic god given right to defrnd oneself.

Recent mass riots by all accross Ametica demonstrate especially in Oregon the high level and need to protect oneself. Oregon is the nations epicenter of political violence in Portland.

It is time to stop these attacks on constitutional rights and begin rrmoving law s from the books. Its time to go back in time to a better place where we had a smaller government eiyh way fewer laws. We in America accross the board need more freedom and less government. Every political group and evrn those apolitical recognise safety and protection is necessary and only firearms will provide that.

In closing, ehy fo the police need firearms to pritect the government officials? Because evrn gloyd prizandki and kate brown feel they fo to feel safe and so should all Orrgonians havecequal access to firearnscwiyhout harassment. Constitutional carry unimftinged is the only way.

I call on all Oregon government to dimlly spend all your time removing laws and never pass another one.
