

I oppose SB 554

So I will be a felon if you go near any loosely defined "public building" that has declared itself a self a gun free zone, will this be communicated on Google maps when I take a trip to Portland (murders and shooting up over 100%)

I have received training and a background check for a concealed handgun license so I am not a criminal by far, so I will become a felon for driving to the airport to pick up a family member?

Doubling the cost of a concealed handgun license is racist and only the rich will be able to have one. Where do you think most crime happens? With police departments being defunded a CHL is needed for self defense.

Again please oppose this bill, there have been no shootings by a law abiding CHL owner to need this. Why is it criminals have more rights than I do to freely move about our state armed?
