

Senators,

To those of you who would support this monster obstruction to justice.

You have every reason to stop the progress of this proposed legislation. It attacks one of the most law abiding groups in American history. You would know this and stop the madness if crime prevention were your real goal. Portland proved otherwise.

Tell the public your true intentions for once. You hate and want to destroy the 2nd Amendment. This is not helping our Country heal.

No to this preposterous denial of Rights.
