

If Patrick Henry were alive today, he would nail a copy of the Bill of Rights to the front door of the Oregon Capitol building, so you can read it and see that you do not have the power to abolish or rescind any of the the Amendments listed in the Bill of Rights, bottom line YOU DON'T HAVE THE REACH OR THE POWER TO CHANGE THE BILL OF RIGHTS,AND NEVER WILL !

If this gun control bill gets through the process and becomes law, here is what I will guarantee is going to happen, it will be challenged in court and the Supreme Court of the United States when they hear it, will send it back to you with a handwritten note in red pen that says " NO !!!! Why are you wasting our time on this unconstitutional gibberish.

The Second Amendment states " the people's rights to bear arms shall not be infringed." The Fourth Amendment states " the people shall be safe from unwarranted search's and seizures." And the Fifth Amendment states " the people's property cannot be seized without due process." and " the people cannot be forced to incriminate themselves." With these rights spelled out and the power and scope of your office falling way short of being able to rescind or abolish any Amendments  
"I WILL NOT COMPLY"

I own firearms, so according to these radical gun control groups , without any corroborating evidence they say I am a criminal and a danger to others around me. I find that claim insulting. I haven't even had a parking ticket much less being a criminal.

When has fear and worry set public policy? When has accusation replaced trust and belief in your fellow man? These groups offer no evidence that I or any other of the legal gun owners in Oregon are planning mass shootings, yet they state it in the media, and in these hearings. I challenge them right now to show their evidence to OSP,so OSP can interdict this action. If these groups cannot produce evidence of said massacre. Then they are operating out of fear or lying or both.  
When did guilty before being proved innocent become the standard in Oregon?

My final points: Since you do not have the power or the reach to change or abolish the Bill of Rights " I WILL NOT COMPLY ! I WILL NOT PLEAD GUILTY TO SOMETHING I HAVE NOT DONE, NOR WILL I SURRENDER MY FREEDOM, RIGHTS AND LIBERTIES TO LEGISLATIVE TYRANTS.
