

I oppose the bill. We as FFL's have common sense to hold guns until they pass their background checks. It's easier then having the state police track down the gun. I grew up with guns, belonged to gun clubs, took hunters safety , even had my gun in my car at school so I could go hunting after school. Never worried about someone taking it. You are making laws for the good guys, not criminals . No where in these laws do you point out what happens to the bad guys, only those who are law abiding. Please don't vote yes. We have enough laws to protect people already, what we don't have is enough laws to keep felons from stealing, killing people.
