

To The Oregon House Committee on Rules:

I adamantly oppose same day registration for the purpose of voting, as there is no rational way or time to verify legal residency and citizenship requirements. This bill will cause disenfranchisement of Oregon resident voters and will only serve to aggravate the unrest and distrust of Government that we just experienced in the 2020 election. The last thing we need are people without "legal standing", to move to a neighborhood for a day to change the will of the people who live and work and pay taxes there. Further, I believe this bill runs counter to the intent of the Oregon Constitution.

Respectfully yours,
Dale Saari
