

How would I protect myself as a concealed carry holder if I have to drive from Klamath Falls, across state to Portland, to pick someone up at the airport in Portland? I'm not leaving my gun behind! Especially needed in Portland with the rioting! And I might be on my way to somewhere else after that and need to carry. Don't Disarm the Legal Gun Holders! Don't penalize us because we forget to take our gun we carry daily out of my purse before I leave home. Especially now with you releasing criminals and cutting the police force. I need to protect myself and the criminals need to know I might be armed. Any new gun bill should be off your agenda as it's against our 2nd Amendment!
