

This bill is totally ambiguous. The state police could never get around to checking my background and I could never buy a pistol or rifle if they wanted to just round file my application. On top of that you have to have a A a valid driver's license but the DMV is so far behind that many people's licenses are not valid. It's going to take the DMV along time to catch up. This law is totally illegal to the US Constitution because it does infringe on our right to keep and bear arms. We are a federal constitutional republic meaning that the constitution is the supreme law of the United States and that is what we must abide by!
