**Re: I OPPOSE [HB 2543]... I don't own a gun but, I have many friends that do.**

It is a scientific fact, the criminal element always have access to firearms.

We need permanent criminal control-not gun control.

I don't believe in "background checks" and or any interferences with the Second Amendment to our sacred Constitution.

I fully support law enforcement personnel especially; the Oregon State Police which I feel is understaffed, under paid and underappreciated.

***Respectfully submitted,***
